***IMPORTANT NOTE:** Any extra nights, optional tours or other amendments, will not be visible on this itinerary.

Day 1: Arrive Manaus, Brazil – Gateway to the Amazon

Today you will board and depart for a guided tour of Manaus, the gateway to the Amazon rainforest. This peaceful city is known for its unique architecture and historic charm. You will explore the historic centre and visit the famous Amazonas Opera House, a Renaissance-style masterpiece inaugurated in 1896, featuring Carrara marble, Murano glass chandeliers, and colourful tiles from Alsace. You will then stroll through the vibrant Adolpho Lisboa Market, a striking wrought-iron building on the banks of the Rio Negro, filled with the scents of freshly caught fish, exotic fruits, aromatic spices, traditional remedies, and handmade crafts typical of the Amazon.

A short cruise will then take you to Vila Paraiso, where you will visit the Rubber Museum. Here, you will learn about the rise and fall of the Amazon's rubber industry through artefacts, documents, and faithful reconstructions of a 19th-century rubber plantation, offering a glimpse into the lives of the seringueiros (latex collectors) and the cultural heritage of that time. After your excursion, you will return on board the RV Brazilian Dream and begin your cruise along the Rio Negro, one of the Amazon's great tributaries stretching 2,250 km. In the evening, you will enjoy a welcome cocktail and have the opportunity to meet the crew.

At dawn, you will set out on a private boat excursion along the Rio Negro, just as the forest awakens and birds take flight. Later in the morning, you will enjoy a guided forest walk to discover the astonishing diversity of Amazonian flora, including towering hardwoods, palms, and vines. Local riverbank communities have organised associations to protect this unique environment, ensuring its natural wealth of fruits, oils, resins, and dyes continues to be used for both handicrafts and traditional medicine.

Back on board, your cruise continues toward the "Três Bocas" area. In the late afternoon, you will once again head out on a private boat to explore the Lago da Pescada region, where you can observe wildlife and take in the beautiful scenery.
